Author Index for Volume 11. . . . . 408

The Subject Index for Volume 11 will appear in the December 1976 issue as part of a cumulative index for the year 1976.

# FERTILITY CONTROL METHODS

## STRATEGIES FOR INTRODUCTION

Edited by
GORDON W. DUNCAN
ELIZABETH J. HILTON
PHILIP KREAGER
ARTHUR A. LUMSDAINE

Introducing particular fertility control methods into cultures where there is little awareness or acceptance of them is one of the most complex problems to face modern man. There are a limited number of available methods, and none of them is universally acceptable; so governments, voluntary agencies, research organizations, and commercial enterprises must work together to ensure that the available contraceptives achieve maximum use. Taking into consideration modern technology and the numerous biomedical, social, and cultural factors that relate to the problem, *Fertility Control Methods: Strategies for Introduction* outlines optimal strategies for achieving this goal.

This volume is the work of twenty-three specialists from such varied areas as biomedicine, communications, demography, marketing, anthropology, psychology, public health, commercial distribution, family planning, and donor services. They examine the complete process of introduction from administrative decisions to client attitudes about contraceptives and contraceptive programs. Specifically, attention is given to three overlapping stages of introduction: (1) Policy decisions that affect the utilization of fertility control methods; (2) public and private distribution and implementation; and (3) client acceptance.

# Biology and Geology of Coral Reefs

Edited by

O. A. JONES
*Department of Geology and Mineralogy (Retired)*
*University of Queensland*
*Brisbane, Australia*

R. ENDEAN
*Department of Zoology*
*University of Queensland*
*Brisbane, Australia*

## VOLUME I: Geology 1

CONTENTS:

JOHN D. MILLIMAN, Caribbean Coral Reefs

D. R. STODDART, Coral Reefs of the Indian Ocean

HARRY S. LADD, Bikini and Eniwetok Atolls, Marshall Island

J. P. CHEVALIER, Geomorphology and Geology of Coral Reefs in French Polynesia

J. P. CHEVALIER, Coral Reefs of New Caledonia

F. W. WHITEHOUSE, Coral Reefs of the New Guinea Region

DALE E. BRANDON, Waters of the Great Barrier Reefs Province

W. G. H. MAXWELL, Geomorphology of Eastern Queensland in Relation to the Great Barrier Reef

H. HEIDECKER, Structural and Tectonic Factors Influencing the Development of Recent Coral Reefs off Northeastern Queensland

W. G. H. MAXWELL, Sediments of the Great Barrier Reef Province

ALAN R. LLOYD, Foraminifera of the Great Barrier Reefs Bores. Author Index—Subject Index.

**1973, 400 pp., $28.00/£13.20**
**Subscription price: $23.80***

*SUBSCRIPTION PRICES FOR INDIVIDUAL VOLUMES VALID ONLY ON ORDERS FOR THE COMPLETE SET RECEIVED BEFORE PUBLICATION OF THE LAST VOLUME. SUBSCRIPTION PRICES ARE NOT AVAILABLE ON ORDERS PLACED WITH ACADEMIC PRESS LONDON.
